What is the Rezenerate Wand?

The Rezenerate Wand is a professional-grade, state-of-the-art precision cosmetic tool featuring nano-technology designed to address fine lines and wrinkles, blemishes as well as a myriad of other cosmetic skin issues. It is the future of beauty...TODAY!

Unlike medical-grade micro-needling devices, the Rezenerate Wand is a cosmetic tool that achieves similar results without invasiveness. It is a safe alternative for clients that don't want an invasive medical procedure but do want great results from the newest facial on the market.

The Rezenerate Facial vs Micro-Needling

The Rezenerate Facial:

- + Cosmetic Facial
- + Revolutionary nanotechnology
- + No numbing cream is required
- + Little to no pain
- + Silicon Pyramid Arrays
- + No bleeding or cross contamination+ Nearly no downtime
- + Low introductory price and limited ongoing costs

Compare to Micro-needling:

- Medical Procedure
- Old, antiquated technology
- Numbing Cream Needed
- Often painful for customers
- Thick steel needles
- Often bloody procedure
- Long recovery time
- Expensive upfront and high ongoing costs

The Rezenerate Anti-Aging Facial™

This facial drastically reduces fine lines and wrinkles and leaves you feeling and looking younger. The Rezenerate Anti-Aging Facial was designed to reduce the signs of aging by painlessly creating hundreds of thousands of microscopic permeations on the surface of the skin. This leads to an immediate plumpness of the skin for an amazing short-term benefit and also allows for greater absorption of nutrients thereby hydrating and re-energizing your skin's natural beauty over the long term. No other facial on the market gives these types of short and long-term benefits. Whether you want to look your best for a night on the town tonight or for a big event six weeks from now, Rezenerate is for you!

The Rezenerate Anti-Blemish Facial™

Specifically designed to reduce signs of blemishes, this facial will renew your self-confidence while creating a smoother and clearer complexion. Blemishes are reduced and skin tone is evened out and dramatically improved, while the underlying causes of blemishes are neutralized to create long-lasting positive effects. The Rezenerate Anti-Blemish Facial painlessly creates hundreds of thousands of microscopic permeations on the surface of the skin which allows for greater absorption of blemish-fighting solutions. This facial works on anything from an unexpected outbreak on a big day to cases of severe breakouts and dark spots.

The most important thing to know about The Rezenerate Facials™ is that they work.

The second? You haven't seen anything like them in your life! Utilizing the latest innovations in science coupled with the best natural-based serums and ingredients in the industry...Rezenerate™ has finally produced the facials the world has been waiting for. The Rezenerate Facials™ utilize a proprietary skin conditioning tool developed through advanced fabrication technologies and computer models which produce high-grade silicon pyramid arrays that are each 1/3 the diameter of a human hair at its widest. It is this innovation that allows perfect balance and effectiveness.
